

AYUSH PATEL

Full-Stack Developer specializing in AI Agents and Intelligent Web Applications.

☎ 9140740200 ✉ ayush292004patel@gmail.com 🌐 GitHub 🌐 LinkedIn 📍 Lucknow, India

PROFESSIONAL SUMMARY

Frontend Engineer with **3 years** of experience in delivering high-quality frontend solutions using **HTML**, **CSS**, and **JavaScript**. Proficient in **React** and responsive design principles, ensuring cross-browser compatibility while creating exceptional user experiences. Successfully engineered dynamic user interfaces that enhanced functionality and usability, contributing to optimized code quality and productivity.

WORK EXPERIENCE

AI Web Development | Internship Jul 2026 - Aug 2026
Remote • Lucknow

InAmigos Foundation

- **Collaborated within an agile team** to design and develop core web functionalities aligned with AI-focused project requirements.
- **Delivered assigned development tasks** within strict deadlines while participating in team technical reviews and discussions.
- **Ensured high code quality and data integrity** while adhering to enterprise development policies and confidentiality standards.

Technologies / Skills Used : WordPress, Web Design, OpenAI API, REST APIs

Frontend Development Intern | Internship Jun 2026 - Jul 2026
Remote • Lucknow

CodeAlpha

- Engineered dynamic and highly responsive user interfaces leveraging modern layout methodologies, ensuring cross-browser compatibility.
- Collaborated on modular components to ensure seamless interaction transitions across multiple viewports while adhering to UI/UX design principles.
- Adapted to emerging technologies swiftly to maintain high productivity and optimized code quality.

Technologies / Skills Used : HTML5, CSS3, JavaScript (ES6), Git, Responsive Design, cross-browser compatibility

PROJECTS

CropCare-Smart Farmer Assistant | 🌐 Github 🌐 Website Jun 2026

Individual Project

- **Architected an intelligent agricultural web app** integrating custom MCP servers and AI diagnostic tools for real-time crop recommendations.
- **Engineered a full-stack architecture** utilizing a responsive React frontend and a Node.js/Express/MongoDB backend.
- **Optimized backend data workflows** to efficiently process high-throughput farmer queries.

Technologies / Tools Used : Render, React, Node.js, Express, MongoDB

DENGO – Full-Stack Travel Platform | 🌐 Website 🌐 Github Jul 2026

Individual Project

- **Architected a full-stack CRUD web application** utilizing MVC architecture and RESTful APIs to manage dynamic travel listings and reviews.
- **Integrated secure authentication** and resource authorization gates using Passport.js to enforce strict user-access controls.
- **Engineered live map integrations** with MapLibre GL and OpenStreetMap APIs for real-time automated location geocoding.
- **Optimized cloud storage workflows** via Cloudinary, leveraging Mongoose lifecycle hooks to auto-purge hosted image assets upon listing deletion.

Technologies / Tools Used : Node.js, Express, MongoDB, EJS, Bootstrap 5, Passport.js, Cloudinary, Render

SKILLS

Programming Languages :	Java, JavaScript, Python, C++, SQL, HTML, CSS
Frameworks & Libraries :	Node.js, Express.js, React, Bootstrap 5, Passport.js, MVC Architecture
Tools & Platforms :	Git, GitHub, MapLibre GL, Render, Model Context Protocol (MCP), RESTful APIs
Databases :	MySQL, MongoDB
Languages :	English, Hindi

EDUCATION

University Of Lucknow | Lucknow Sep 2024 - Sep 2028
CGPA : 8.2

BTECH

Computer Science (Artificial Intelligence)

Sunbeam School Suncity | Varanasi 2022
Percentage : 88%

Class 12th

Sunbeam School Suncity | Varanasi 2020
Percentage : 89%

Class 10th

CERTIFICATIONS

AI & Cyber Security Mastery | Udemy 2026

- Developed a foundational understanding of AI-driven security strategies, model frameworks, and defensive security architectures.
- Studied core cybersecurity methodologies, including network traffic analysis using Wireshark, threat detection using Amazon GuardDuty, and the application of the NIST Risk Management Framework.
- Explored practical security testing concepts, analyzing the mechanics of Python-based network port scanners and automated malware evaluation methodologies.

5 Day AI Agents: Intensive Vibe Coding Course | Google & Kaggle 2026

- Completed intensive training on Agentic Workflows methodologies, exploring practical applications and deployment of diverse AI agent frameworks.
